Los Angeles, California 90015

Dear Sirs,

As part of Douglas Aircraft's program to comply with the Hazard Communication Standard set forth by the State of California, we recently sent a letter requesting a Material Safety Data Sheet (MSDS) for your product. As of this date, it has been 15 days since the initial request. It is therefore necessary to inform you that if we do not receive an MSDS within 10 working days, we will inform the State of California Department of Industrial Relations of your noncompliance. Failure to provide the required MSDS within ten working days will result in our request to Materials Department to remove you from the approved vendors list.

Douglas Part No: DPM 519

Your Product: Duplicating Fluid

If for any reason an MSDS can not be supplied, please notify us in writing.

We sincerely hope that you will cooperate in this matter. Please return a copy of this letter with the MSDS. If you have already sent the requested MSDS recently please disregard this letter. Thank you.

Sincerely,

Keri Irvin
